## PROFESSIONAL SUMMARY

Information Technology graduate with hands-on experience in Python, Java, Web Development, and AI/ML through projects and internships. Skilled in developing applications, working with databases and REST APIs, and applying problem-solving skills. Seeking an entry-level software role to contribute technical expertise and grow professionally.

## SKILLS

**Programming Languages:** Python, Java

**Web Development:** HTML, CSS, JavaScript, Bootstrap, React.js

**Databases:** MYSQL,DBMS

**CS Fundamentals :**Data Structures & Algorithms, Object-Oriented Programming (OOP), Software Development Life Cycle

**AI/ML & APIs :** Google Gemini API Integration, REST APIs, Streamlit

**Tools & Platforms :** Git, GitHub, VS Code, Google Colab, MS Excel, MS Word

**Soft Skills:** Teamwork, Communication, Analytical Thinking, Problem Solving

## EDUCATION

**Vignan's Institute of Engineering for Women**

**2022 – 2026**

*B.Tech, Information Technology — Percentage: 73.28%*

*Visakhapatnam, Andhra Pradesh*

**Sri Gayatri College**

**2020 – 2022**

*Intermediate, MPC — Percentage: 66.9%*

*Visakhapatnam, Andhra Pradesh*

**Pearl English Medium School**

**2020**

*SSC — Percentage: 99.5%*

*Visakhapatnam, Andhra Pradesh*

## INTERNSHIP EXPERIENCE

**Infosys SpringBoard**

**August 2025 – October 2025**

*Artificial Intelligence Intern*

- Developed a Dog Breed Detection system using Python and Machine Learning for image classification.
- Gained hands-on experience in data preprocessing, model training and AI concepts, achieving 90+% accuracy.

**ExcelR**

**April 2024 – July 2024**

*Web Development Intern*

- Created responsive web components using HTML, CSS, and JavaScript to improve user experience across devices.
- Optimized frontend performance through debugging, code enhancement, and modern UI development practices.

## PROJECTS

**AI Model for Dog Breed Detection and Information Generation** | *Streamlit, API Integration*

[GitHub Link](#)

- Engineered a dog breed detection app using Python, Streamlit, and a machine learning model with image upload and real-time predictions, achieving 85–90% accuracy.
- Implemented authentication, upload history using SQLite, and Gemini API integration for dynamic dog details.

**Intelligent Malware Analysis for System Security** | *Machine Learning , Python*

[GitHub Link](#)

- Built a Machine Learning model using K-Nearest Neighbors, Decision Tree, and Random Forest to detect malicious PE files and URLs.
- Performed data preprocessing and feature extraction achieving 99.6% classification accuracy .

**Food Delivery Web Application** | *React.js, JavaScript , HTML5, CSS3*

[GitHub Link](#)

- Engineered a responsive Food Delivery App using React.js with multi-page navigation powered by client-side routing.
- Constructed dynamic menu features using reusable components, ensuring smooth interaction and structured UI.

## CERTIFICATIONS

- Fundamentals of Full Stack Development - **EXCELR**
- Frontend Development - **INFYSKILL**
- Java Course - **Scaler**
- Programming Fundamentals using Python - **Infosys Springboard**
- SQL Basic - **HackerRank**

## EXTRACURRICULAR ACTIVITIES

- Assisted in organizing college technical events.
- Participated in workshops and seminars for academic and professional development.
